AFA Fellowship Program

AFA Fellowship Program is a fund developed to bring European students and young adults to the United States for several months of training and development in both leadership skills and in the workings of democratic government. It is hoped that after their sojourn in the United States, graduates of the program will return to Europe to become bridge builders to the West and help in the development of a committed democratic leadership base in Europe.

American Freedom Alliance

The American Freedom Alliance is a non-political, non-partisan, movement of concerned Americans which identifies threats to western civilization. The Alliance's conferences, programs, publications, web sites and networking groups develop tools and strategies to counter ideologies which underlie these threats, including radical Islam, moral and cultural relativism, appeasement and excessive emphasis on multiculturalism.

American Freedom Alliance is a non-profit organization under Section 501 (c) 3 of the Internal Revenue Code. Contributions to AFA are tax-deductible under Section 170 of the Code. EID 68-0643445
